FIELD EXPERIENCE

Front-End Web Development Intern, *Navy Medical Center San Diego*   Aug 2016 - Mar 2017
- Trained with CSS/Bootstrap, HTML, JavaScript/jQuery, maintaining a user-friendly and visually appealing experience for an intranet site.
- Interviewed relevant parties and created wireframes on a project to improve the intranet layout, design, and user experience.
- Used vanilla CSS and Bootstrap to style interface elements such as navigation bars, search bars, buttons, and forms.
- Implemented simple event-listeners using a blend of JavaScript and jQuery.
- Debugged common issues such as responsive design, CSS styling, and some JavaScript errors.
- Wrote code documentation for the codebase.

WORK EXPERIENCE

Research Protocol Associate, *HIV Neurobehavioral Research Program*   Aug 2021 - Apr 2024
- Demonstrated clear working knowledge of human subjects research, study protocols, confidentiality, and medical terminology, enabling critical thinking adaptable to new situations and quick-paced job environments.
- Coordinated study participants for numerous studies, carefully attending to their questions and concerns, as well as painting a clear picture of what to expect throughout the research process.
- Wrote an operational protocol for human subjects compensation, and actively contributed to other protocols and internal documentations.
